

# Universal Village Teas

Universal Village teas are single origin and made from premium quality leaf expertly grown in the lush Sri Lankan central highlands.

These superior high grown tea bushes flush regularly and brew a highly satisfying cup of tea. Universal Village teas have grown to become one of the most popular organic teas in Melbourne because of a highly loyal following!

## Why does Universal Village tea have such a loyal following?

The flavor of Universal village is reminiscent of the tea of old... not 'murky' like the blended teas you find on super-market shelves, but crisp and clear with a subtle orange liquor colour in the cup.

It's the kind of tea your grandmother would have sipped!

## Certified FAIRTRADE

Universal Village tea is grown by the Small Organic Farmers Association near Kandy, Sri Lanka.

The farmers who grow our teas are paid around 75% more than market price. The extra income from FAIRTRADE enables them to secure their livelihoods and improve their economic & social wellbeing.

The art of superb tea—a taster in action

## Tea Bags

Universal Village black and green tea bags make a rounded and refreshing cup.

- Unbleached tea bags
- No formaldehyde
